She: Do dates make you nervous?

He: Oh yes, especially when the client and server are in different timezones and I need to calculate the difference and they are in different formats and I mean why can't everyone just use ISO8601, right?

She: Okay never mind thanks bye...

What's on the menu?

- Plethora of amazingly cool stuff people have built purely using CSS.
- Bunch of simple, clever & powerful pure CSS examples for the real world.
- Brand new & upcoming CSS capabilities.
